The London Office

The London Office is located at Harmsworth House, 13-15 Bouverie Street, EC4Y 8DP. Tel: +44 (0)20 7596 + ext (see below). Opening hours: Monday - Friday 09:00 - 17:00.

Customer services currently available from the London Office include:

- Document filing (facilities for 24 hour filing).

Customers should ensure that packages are sealed and that the appropriate fee or authority to charge either an office deposit account or a debit/credit card is included with the filing.

Receipts will only be issued for the package filed rather than the documents enclosed in the package.

- Obtaining files and documents for inspection;
- Support for patents, designs, trade mark and copyright hearings held in Harmsworth House;
- A limited supply of free promotional material on patents, designs, trademarks etc.;

Further information on all aspects of the London customer services is available from:

Les Yuill - London Office Manager - Tel: +44(0)20 7596 6518

Nagim Ali - London Office Coordinator - Tel: +44 (0)20 7596- 6508

Customer Service Standards

What service can you expect from us?

Our aim is to administer the intellectual property legislation fairly and consistently. We believe it is important that you should know what you can expect from us and so we set specific standards for our dealings with you. Our guiding principles are that you may expect to:-

- be treated fairly;
- be treated courteously; and
- get help from us with your application.

To achieve this we aim to do the following:

- publish details of all the applications for Intellectual Property Rights (IPR) we accept, and publish major decisions which lay down new principles or reinforce existing ones for the grant and protection of IPR;
- always explain and give reasons for our decisions and give you the chance to challenge them;
- be positive and helpful to you; and
- staff our enquiry points from 09:00 to 17:00.

The standards, including the performance against them for the quarter October to December 2006 are set out below. Performance will continue to be monitored with the results updated quarterly.

We will:

- | | |
|--|-------|
| • See visitors within 10 minutes of pre-arranged appointment times | 100% |
| • Answer enquiries politely and professionally: | |
| letters and faxes within 5 working days | 100% |
| e-mail enquiries within 1 working day | 100% |
| 90% of telephone calls within 20 seconds. | 94.3% |

The following are targets that are not able to be measured

- Provide clear information about our services
- Make our services available to everyone
- Act on feedback to solve problems and make sure they do not happen again.

If you wish to comment generally on performance against standards, or wish to suggest any other areas of the Office where standards might be established, please contact:-

South Wales NP10 8QQ

Tel: +44(0)1633 814796
Fax: +44(0)1633 814509
e-mail: custstandard@ipo.gov.uk

You may also wish to know there is a leaflet available with details of the Customer Service Standards and the Complaints procedure. Copies are available from Maria Ciavatta (as above).

Complaints Procedure

The Office is committed to providing high quality best value services.

If things go wrong we want to know.

If you wish to complain about the quality of service you have received from us and cannot resolve the problem with the person you have been dealing with or his/her manager, please write to:

Ian Fletcher
Chief Executive
PO Box 49
Cardiff Road
Newport
South Wales
NP10 8YU

e-mail: box49@ipo.gov.uk

Your complaint will be acknowledged within one working day and you will receive a full reply within 10 working days. If, in exceptional circumstances, we cannot meet this target, we will explain why and give you a new deadline.

If you have followed this procedure and are still not satisfied, you have the right to ask your MP to take up your complaint and our handling of it with the Parliamentary Commissioner for Administration (the "Ombudsman"). Your local Citizen's Advice Bureau will give you the address of your MP. You may get further advice from the Ombudsman's office at:

The Parliamentary Ombudsman
Office of the Parliamentary Commissioner for Administration
Millbank Tower
Millbank
London

® PATLIB is a registered trade mark of the EPO

National Security

Attention is drawn to the provisions of section 23 of the Patents Act 1977 (as amended by the Patents Act 2004 with effect from 1 January 2005).

Under these provisions, certain patent applications may NOT be filed abroad by a person resident in the United Kingdom, unless permission is obtained from the comptroller. These are patent applications which contain information relating to military technology or information the publication of which might be prejudicial to national security or public safety. For such patent applications, permission to file abroad should be sought from the comptroller, unless an application for a patent for the same invention has first been made in the United Kingdom, and six weeks have elapsed from the date of such application and no directions prohibiting publication or communication have been given or all such directions have been cancelled. Requests for permission from the comptroller to make an application abroad should be made even if, for example, such an application is required by contract with a foreign firm.

Requests for permission will be facilitated by explicitly addressing them "For attention in Room G.R70". Alternatively, requests may be faxed to +44 (0)1633 814415. Enquiries regarding this notice may be made by telephoning +44 (0)1633 813558.

Filing of Patents Documents by Post

Anything sent to the UK Intellectual Property Office under UK patents law¹ by posting in the United Kingdom is deemed to have been filed when it would have been delivered in the ordinary course of post. In practice, this has generally meant that patents documents sent through the Royal Mail could, if delayed, be given a filing date before their actual date of receipt. Supporting evidence is called for in some cases before the earlier date is granted.

Schedule 8 of the Postal Services Act 2000, which came into force on 26 March 2001, makes clear that the use of the terms "post", "registered post", "recorded delivery", and "first class post" in legislation cannot be limited only to services provided by what it calls "the Post Office company". As a result, the Office now recognises as "post" any items delivered to it by any commercial service which undertakes to deliver mail in exchange for a fee. It follows that patent documents sent by such commercial services can, if delayed, be deemed to have been filed before the actual date of receipt.

Enquiries about this notice, and requests for documents to be given a filing date earlier than the actual date of receipt, should be directed to Kerry Collings at the

UK Intellectual Property Office

Tel: +44(0)1633 814414

Fax: +44(0)1633 814444

e-mail: kerry.collings@ipo.gov.uk

¹ The Patents Act 1977, Rule 97 of the Patents Rules 1995

UK Patent Classification Key (UKC)

1. From 1 July 2007 the UKC key will not be used to classify documents at the UK Intellectual Property Office.

The UK Intellectual Property Office (UK-IPO) has conducted a consultation on whether there's a continuing need for a UK Patent Classification Key; details of the consultation are available on our external website at <http://www.ipo.gov.uk/consult-ukc.pdf>. A response to the consultation is at <http://www.ipo.gov.uk/response-ukc.pdf>. After careful consideration, the UK-IPO has decided to cease classifying GB Patents to the UKC with effect from 1st July 2007.

2. Summary of changes effective from 1 July 2007.

To implement the change in practice a dummy Heading and Mark will be introduced in the UKC which will indicate that a GB Patent has not been classified to that key. The application of this Heading by UK Patent Examiners will commence on 1 July 2007 and no other Headings* will be applied from this date; any classifications applied before 1 July 2007 will not be removed prior to publication. Therefore, after this date the front pages of GB 'A' and 'B' published specifications will contain either:

- a) UKC terms applied before 1 July 2007; or,
- b) dummy Heading and Mark indicating that the publication is "NOT CLASSIFIED".

Similarly, after the 1st July the Patents Journal Subject Matter Index will also contain a mixture of previously applied UKC Headings and the dummy Heading NOT (N zero T).

*Due to international obligations the UKC Headings B5N and C7A will continue to be applied after 1st July 2007.

Although the UKC will cease to be applied to newly considered applications, the historical content of the UK patent document collection will not be affected. No further editions of the Key will be published. The final edition of the Key, Edition X, will remain available at <http://www.ipo.gov.uk/patent/p-decisionmaking/p-class/p-class-ukc.htm>.

The following pamphlets are available without charge from the above website:

- 1) Notes on the use of the Classification Key;
- 2) UKC (Edition W) Catchwords;
- 3) The Documentation Record (revised to edition X);
- 4) UKC/IPC Concordance;
- 5) Introduction to U1S;
- 6) Heading U1S Universal Indexing Schedules for Use, Application, Utility and Property;
- 7) The Documentation Record (revised to edition X)
- 8) Unit Introductions (showing changed headings).

The following pamphlets are available in printed form but are not available on our website:

- 1) Structure of the Classification Key;
- 2) Catchwords Index to Heading U1S.

3. Prices

A number of different packages are available. For details see our website <http://www.ipo.gov.uk/about/about-ourpublications/about-publication.htm>

Eighth edition of the International Patent Classification (IPC8)

Following the introduction of the eighth edition of the international Patent Classification (IPC8), all GB patents published after 31 December 2005 will be classified under the advanced level of IPC8.

All patent documents also continue to be classified under the UK Classification Key.

IPC8 is a new, internationally-recognised classification system which came into force worldwide on 1 January 2006. It was introduced by the World Intellectual Property Organization (WIPO), 34, Chemin des Colombettes, CH-1211 Geneva 20, Switzerland; email ipc.mail@wipo.int. Any enquiries about IPC8 and its use should be directed to WIPO.

IPC8 classifying terms look similar to IPC7 terms except that all classifying terms now include a version indicator in brackets, currently "(2006.01)". This indicates that the classifying term in question was first introduced in January 2006.

All existing IPC7 terms that remain valid under IPC8, as well as new terms introduced on 1 January 2006, carry the version indicator "(2006.01)". Any new terms introduced after January 2006 will carry a version indicator appropriate to the month of introduction. Changes in the IPC8 classification scheme are expected every 3 months from July 2006.

The design of front pages of patent documents has been altered according to new internationally-agreed formats which stipulate a tabular presentation of IPC8 data. IPC8 data presented in the indexes of this Journal has been altered to include the version indicator mentioned above.

Indexes Used in this Journal

The head notes to some of the indexes in this Journal include examples of entries appearing in the indexes. Where appropriate, component parts of the examples are preceded by a two-figure INID code (Internationally agreed Numbers for the Identification of bibliographic Data) and include two-letter country codes. The codes are those of standards of the World Intellectual Property Organisation (WIPO) and more details can be found on the WIPO Website: www.wipo.int/scit/en/standards/standards.htm.

Specifications on Sale in London

Current Specifications, although not available for sale at the London Front Office, can be ordered during the week commencing 31 October 2007 are in the range GB 2437046 - GB 2437696.

UK Intellectual Property Office Mediation Service

The Office offers a high quality, value-for-money mediation service for use in settling Intellectual Property disputes.

Why you should use our service

The service aims to provide a quick and cost-effective alternative to litigation. The service allows parties to reach agreement in Intellectual Property disputes through mutual consent, which is vital if goodwill is to be preserved for future business relations.

The office's team of CEDR accredited mediators has extensive experience of dealing with Intellectual Property disputes, ranging from ownership and inventorship disputes to complex licensing agreements.

What we offer

We can provide an accredited mediator and/or facilities to accommodate mediation at either our London or Newport offices.

Our mediators and accommodation facilities can be booked on either a half or full day basis.

What it costs

Mediation & Accommodation: includes the costs of a mediator, accommodation, general administration and travelling expenses.

Venue	Full day	Half day
Central London	£1000	£750
Newport	£750	£500

Accommodation only: £100 per half day at either our central London or Newport offices.

All costs are subject to VAT for UK customers and will be borne equally by the parties unless agreed otherwise.

How to use our services

Proceedings under the Patents Act 1977

Applications for Patents Filed

Application Number Range

GB0718161.3 - GB0718700.8

This index sets out details of applications for patents filed in the application number range given above. The entries are arranged in alphabetical order according to the applicant's name. Where there are joint applicants, then the entry under the name of the first applicant sets out details of the application, including the names of the other applicants. The entries under the names of the other applicants are cross referenced to the entry for the first applicant.

Each entry in the index under the name of the (or the first) applicant provides the following information: the name(s) of the applicant(s); the title of the invention; the filing date of the application; any priority details; and the application number allotted to the application.

Where an application is requesting an early date under Section 8, 12,15(9), or 37 of the Act, then the filing date of the earlier application is included (see example 2). Where an application is derived from an application under the Patent Cooperation Treaty or is converted from a European Patent Application, then the application number, the publication number, and the date of filing of the PCT or EP application are included (see example 3).

The application number includes, at its end, a check digit. The full application number, including the check digit, should be quoted in all correspondence concerning proceedings in respect of an application up to the grant of a patent. When the application is published under Section 16(1) of the Act, it will be accorded to a seven-figure serial number. This should be used only when seeking to identify printed copies of the specification and its abstract and to make enquiries concerning entries in the Register of Patents.

These applications will not be available to the public for inspection or purchase until the date of publication under Section 16(1) of the Act. This date will be advertised in a subsequent issue of this Journal.

Where applicant details are not initially available that entry will appear at the end of the index and the relevant data field will be blank. A further entry will be made in the Journal when the identity of the applicant is supplied.

There follows three examples of entries for this index. The first example shows an entry under the name of the first applicant for an application having joint applicants, and includes an entry under the name of one of the other applicants. The second example shows an entry for a divisional application and includes priority details. The third example shows an application derived from a PCT application.

Applications terminated after Publication under Section 16(1)

This index lists, according to the year of application and in ascending application number within each year, applications which have been withdrawn, treated as having been withdrawn, refused, or treated as having been refused, after publication under Section 16(1). Alongside each application is the related publication number.

Applications published : Subject-Matter Index

GB2437481 - GB2437696

This index sets out details of applications in the above number range which are published under Section 16(1) as from the date of publication of this issue of the Journal. Printed copies of the applications, together with the front pages containing their abstracts and bibliographic and classification data, and copies of search report under section 17, are now available at £2.67 per copy (including postage) from the UK Intellectual Property Office (Sales), Concept House, Cardiff Road, Newport, South Wales NP10 8QQ. These items are also available, but for a limited period only, to personal callers at Harmsworth House, 13-15 Bouverie Street, London EC4Y 8DP

The index also includes applications in the above number range derived from applications under the Patent Cooperation Treaty (PCT) which have entered the UK national phase. Printed copies of the front page of these applications are similarly available together with English translations of those applications published under the PCT in a language other than English.

Each entry in the index provides the following information: the publication number; the application number; the date on which the application was filed at the Office; the name(s) of the applicant(s) and the country of incorporation; the abstract title; any priority details; the United Kingdom Classification Heading(s) assigned to the application; and the International Patent Classification assigned to the application.

Where an application is requesting an early date under Section 8, 12, 15(4), or 37 of the Act, then the application number and the date of filing of the earlier application are included (see example 2). Where an application is derived from an application under the Patent Cooperation Treaty or is converted from a European Patent application, then the application number, the date of filing, the publication number and the date of publication of the PCT or EP application are included (see example 3).

In the index, the entries are grouped in ascending publication number order according to the UK Classification Headings. The UK Heading is given at the beginning of each group. Where an application has been classified in a supplementary (or secondary) Heading, then the entry under the primary Heading includes details of the application and the entry under the supplementary Heading is in the form of a cross reference to the primary Heading (see example 4).

The publication number is the seven figure number given to an application when it is published and by which it will be recorded on the Register of Patents. Printed copies of each application will also be identified by the publication number, followed by the document type "A". This identification should be quoted in full when ordering copies. However, for all proceedings up to grant of a patent, the application number originally assigned should be used.

There follows four examples of entries for this index. The first does not include any information on priorities, earlier applications, or PCT or EP applications. The second and third include priority information. In addition, the second includes information carried

for a divisional application, and the third includes information carried for an application derived from a PCT application. The fourth example shows an entry under a supplementary Heading.

Applications published: Name Index

This index lists, in alphabetical order, the names of applicants and inventors for the applications the publication of which is announced in this issue of the Journal. The entry under the name of the applicant sets out the details of the application including the name of any inventor who is not also an applicant. Where an inventor is also an applicant, the name appears in the index only as an applicant. Where there are joint applicants, details of the application are given only for the entry under the name of a first applicant, the entries under the names of the other applicants being cross referenced to the entry for the first applicant. Where an inventor is not also an applicant, the entry under the name of the inventor is cross referenced to the entry of the applicant, or the first applicant in the case of joint applicants.

Each entry under the name of the (or the first) applicant provides the following information: the name(s) of the applicant(s); the country of incorporation; the names of inventors who are not also applicants; the UK Classification Headings accorded to the

application; and the publication number of the application.

There follows three examples of entries for this index. The first example shows the entry for an application having two joint applicants and an inventor who is not also an applicant, the second shows the entry for the inventor who is not the applicant, the third shows the entry for the other applicant.

Example 1

(71) **Williams PLC and Carr PLC**
(Incorporated in the United Kingdom)
(72) Smith, WS
(52) B5A A1C (11) GB2209689

Patents granted:**Number Index**

Patents whose grant is indicated in the index below take effect for the purposes of all provisions of the Act subsequent to Section 25(1) as from the date of publication of this issue of the Journal. Printed copies of the corresponding specifications of the patents identified by the publication number listed, and followed by the letter "B", are now available for sale at £4.04 per copy (including postage). These items are available from the UK Intellectual Property Office (Sales), Concept House, Cardiff Road, Newport, South Wales NP10 8QQ and, for a limited period only, to personal callers at Harmsworth House, 13-15 Bouverie Street, London EC4Y 8DP.

This index lists the granted patents in ascending publication number order. Each entry in the index provides the following information: the publication number; the application number; the date on which the application was filed at the Office; the name(s) of the proprietor(s) and the country of incorporation; the name(s) of the inventor(s); the title of the invention; any priority details; the United Kingdom Classification Heading(s) assigned to the application; and the International Patent Classification assigned to the application.

Where an application is requesting an early date under Section 8, 12, 15(4), or 37 of the Act, then the application number and date of filing the earlier application are included (see example 2). Where an application is derived from an application under the Patent Cooperation Treaty or is converted from a European patent application, then the application number, the date of filing, the publication number, and the date of publication of the PCT or EP application are included (see example 3).

There follows three examples of entries for this index. The first does not include any information on priorities, earlier applications, or PCT or EP applications. The second and third include priority information. In addition, the second includes information carried for a divisional application, and the third includes information carried for an application derived from a PCT application.

Example 1

Patents granted:**Subject-Matter Index**

This index is based on the current UK Classification Key. The Classification of the specification of an individual patent may differ from that of the specification accompanying the application published under Section 16 for various reasons such as changes in the subject matter disclosed in these specifications or changes to the Key.

Patents granted: Name Index

This index lists, in alphabetical order, the names of proprietors and inventors for patents whose grant is announced in this issue of the Journal. The entry under the name of the proprietor sets out the details of the patent including the name of any inventor who is not also a proprietor. Where an inventor is also a proprietor, the name appears in the index only as a proprietor. Where there are joint proprietors, details of the patent are given only for the entry under the name of a first proprietor, the entries under the names of the other proprietors being cross referenced to the entry for the first proprietor. Where an inventor is not also a proprietor, then the entry under the name of the inventor is cross referenced to the entry for the proprietor, or the first proprietor in the case of joint proprietors.

Each entry under the name of the (or the first) proprietor provides the following information: the name(s) of the proprietor(s); the country of incorporation; the names of inventors who are not also proprietors; the UK Classification Headings accorded to the patent; and the publication number of the patent.

There follows three examples of entries in this index. The first example illustrates the case where there is a single proprietor who is also the inventor. The second example illustrates the case where there is a single proprietor and an inventor who is not also a proprietor, and includes the entry for the inventor. The third example illustrates the case where there are joint proprietors and an inventor who is not also a proprietor, and includes the entries for the other proprietors and the inventor.

European Patents granted

Grants mentioned in EPO Bulletin No 07/44 dated 31 October 2007

This index lists, in ascending publication number order, European patents designating the United Kingdom as a Contracting State, which have been granted under Article 97 of the European Patent Convention as of the date of the EPO Bulletin mentioned above. For each entry in this index, the first item is the publication number of the European application and the second item is the application number. The item (NOT ENGLISH) is used to indicate when the language of publication is French or German, and the last item is the name(s) of the proprietor(s). For patents having a publication language of French or German, an English translation must be filed if the patent is to continue to be effective in the UK.

There follows an example of an entry for this index.

Translations filed: European Patents

This index lists European Patents designating the United Kingdom as a Contracting State, for which a translation has been filed under Section 77(6)(a). The entries are arranged in blocks in order of date on which the filing of the translation was entered in the Register. Within each block, the entries are arranged in ascending publication number order with the application number, the date on which grant took effect in the UK, and the name of the proprietor given against each publication number.

There follows an example of an entry in the index.

(Date of entry in Register) **15 DEC 1989**
 (11) EP0145872 (21) EP84111927.4
 (Effective date of UK grant) 20 Dec 1989
 (73) Black and Decker Overseas AG

Translations filed: Amended European Patents

This index lists amended European Patents designating the United Kingdom as a Contracting State, for which a translation has been filed under Section 77(6)(b). Each entry comprises the date on which the filing of the translation was entered in the Register, the publication number, the application number, the date of grant, and the name of the proprietor.

There follows an example of an entry for this index.

Translations filed: Claims of European Applications

This index lists, in ascending serial number order, applications for European Patents designating the United Kingdom as a Contracting State, for which a translation of claims has been filed under Section 78(7).

NIL RETURN

European Patents void

This index lists European Patents designating the United Kingdom as a Contracting State, which were published in French or German and for which an English translation has not been filed within the period prescribed by the Patents Rules. In accordance with Section 77(7), they are therefore treated as always having been void. The patents are listed in ascending publication number order. Against each publication number is the corresponding application number and the date of the European Bulletin in which grant by the EPO was announced.

There follows an example of an entry in the index.

European Patents revoked

This index lists European Patents designating the United Kingdom as a Contracting State which have been revoked by the EPO under Article 102 of the European Patent Convention. The index is arranged according to the date on which the patent was revoked with the earliest date first. Each entry includes the above date, the publication number, and the application number of the revoked patent.

There follows an example of an entry in the index.

Application to Amend the Specification of a patent now Open to Opposition

Section 27 amendments and Section 75 before the Comptroller

If you intend to oppose the amendments filed under section 27 before the Comptroller, you must **within two months** of the appearance of the advertisement, file two copies of Patents Form 15/77 giving the comptroller notice of opposition to the amendments. You also need to file two copies of a statement setting out fully the facts of your case and the relief that you are seeking.

Section 75 before the Court

If you intend to oppose the amendments, filed under Section 75 before the court, you must **within 14 days** from the appearance of this advertisement, file and serve on all parties and the comptroller a notice opposing the application. This must include the grounds relied on.

Section 75

Section:	75 before the Court
Patent Number:	EP0996905
Patent Court Action Number:	HC-06-CO03912/ CO04227
Title of patent:	System and method for synchronizing electronic mail across a network
International classification:	G06F
Name of patent proprietor:	VISTO CORPORATION

Section 46**Licences of Right****Licence of Right Endorsement under Section 46(1)**

The patents listed below have been endorsed Licences of Right in the Register with effect from the dates specified. Annual fees on these patents are payable at half the full rate and any person is entitled as of right to a licence under any such patent.

Any person who claims that the proprietor or the patent is, or was at the time of entry, precluded by a contract in which the claimant is interested from granting licences under the patent may, within 2 months after the making of the relevant entry, apply to the Comptroller for cancellation of the entry. For further information contact +44 (0)1633 814656.

GB 2403409 BAXTER INTERNATIONAL INC ET AL
Methods for repairing and regenerating human duramater. Patent revoked on 5 October 2007

Sections 74A and 74B**Patent opinions**

Details of Patent opinions (under section 74A) are not given in this Journal, but are published on our website at:

<http://www.ipo.uk/patent/p-other/p-object/p-object-opinion/p-object-opinion-advert.htm>

These web pages contain information on all requests for opinions and their outcome (including where the request has been refused or withdrawn). In addition, they give information generally on the opinions process, including an explanation of the procedure for filing observations on a request, and the deadline for doing so. Details of any reviews of opinions (under section 74B) may also be found there.

Section 117 Correction of Errors in Patents and Applications

Request made for Correction of Error

In the event that the Comptroller requires notice of the proposed correction to be advertised in accordance with Rule 91(3) then details of the proposed correction will be advertised later.

EP 1261603 AVENTIS PHARMA S.A. Flavone derivatives, preparation method and use as medicines. Request for correction to the translation under Section 117 filed on 30 May 2007

EP 1415234 INTEL CORPORATION High density severlets utilizing high speed data bus. Request for correction under Section 117 filed on 30 July 2007

EP 1532263 SUNGENE GMBH & CO. KGAA Method for hydrolising carotenoids esters. Request for correction to the translation under Section 117 filed on 27 April 2007

Case decided by the Comptroller

Corrections Allowed

GB 2419077 AVON POLYMER PRODUCTS LIMITED Milking apparatus and method. Request for correction under Section 117 filed on 3 May 2007 allowed on 4 October 2007

GB 2421110 DRÄGER SAFETY AG & CO KGAA Fire training system. Request for correction under Section 117 filed on 23 May 2007 allowed on 4 October 2007

EP 1284737 EISAI CO., LTD Water soluble prodrugs of azole compounds. Request for correction under Section 117 filed on 18 July 2007 allowed on 4 October 2007

EP 1490949 EBM-PAPST MULFINGEN GMBH & CO.KG Stator for electric motors having a winding interconnection assembly. Request for correction to the translation under Section 117 filed on 8 May 2007 allowed on 4 October 2007

EP 1493211 ERICSSON AB Optical amplifiers. Request for correction under Section 117 filed on 15 December 2007 allowed on 9 October 2007

Appeal lodged

GB 0515579.1 RAJESH KAPUR Method for preserving access to system in case of disaster. Notice of Appeal against the decision of the comptroller dated 12 September 2007 lodged with the Patents Court on 26 September 2007 (Action No. CH2007APP0616)

GB 0516374.6 RAJESH KAPUR Method for preserving access to deleted and overwritten documents. Notice of Appeal against the decision of the comptroller dated 12 September 2007 lodged with the Patents Court on 26 September 2007 (Action No. CH2007APP0616)

GB 0516995.8 RAJESH KAPUR Method for retrieving deleted documents. Notice of Appeal against the decision of the comptroller dated 12 September 2007 lodged with the Patents Court on 26 September 2007 (Action No. CH2007APP0616)

GB 0516997.4 RAJESH KAPUR Method for validating system changes by use of a replicated system as a system testbed. Notice of Appeal against the decision of the comptroller dated 12 September 2007 lodged with the Patents Court on 26 September 2007 (Action No. CH2007APP0616)

GB 0518016.1 RAJESH KAPUR Method for preserving access to system in case of disaster. Notice of Appeal against the decision of the comptroller dated 12 September 2007 lodged with the Patents Court on 26 September 2007 (Action No. CH2007APP0616)

GB 0519238.0 RAJESH KAPUR Method for retrieving deleted documents. Notice of Appeal against the decision of the comptroller dated 12 September 2007 lodged with the Patents Court on 26 September 2007 (Action No. CH2007APP0616)

GB 0519365.1 RAJESH KAPUR Method for preserving access to deleted and overwritten documents by means of a system recycle bin. Notice of Appeal against the decision of the comptroller dated 12 September 2007 lodged with the Patents Court on 26 September 2007 (Action No. CH2007APP0616)

GB 0519463.4 RAJESH KAPUR Method and system for producing a data backup system of a primary system. Notice of Appeal against the decision of the comptroller dated 12 September 2007 lodged with the Patents Court on 26 September 2007 (Action No. CH2007APP0616)

Rule 110 Alteration of Time Limits

Extension Allowed

EP 1019518 FRANKGEN BIOTECHNOLOGIE AG SELF-DELETING VECTORS FOR CANCER THERAPY Period(s) prescribed by Rule(s) Schedule 4 Para 2 extended under Rule 110(6) in accordance with the decision of the Comptroller dated 31 JUL 2007. The patent/application is reinstated subject to special terms for third party interests.

Proceedings under EC Regulations 1768/92 and 1610/96

Supplementary Protection Certificates for Medicinal Products and Plant Protection Products, respectively

These entries include details of all proceedings relating to Supplementary Protection Certificates. Applications for Supplementary Protection Certificates are numbered in a single yearly sequence commencing SPC/GB93/001 covering both medicinal and plant protection products and the same number is retained for the granted certificate. Proceedings are open to public inspection but the granted certificate is not separately published.

The entries are grouped in categories according to the type of proceedings. Within each category the entries are arranged in alphabetical order according to the name of the applicant for, or holder of, the certificate and provide the following information; the name and address of the applicant or holder; the product in respect of which the certificate has been applied for or granted; the product type; ie. "Medicinal" or "Plant Protection"; the number and date of the first authorisation under Directive 65/65/EEC or Directive 81/851/EEC to place the product on the market as a medicinal product in the United Kingdom or the number and date of the first authorisation under Article 4 of Directive 91/414/EEC or an equivalent provision of national law to place the product on the market as a plant protection product in the United Kingdom; where relevant, the country; number and date of the first authorisation to place the product on the market in the European Community; the number and title of the basic UK patent or European patent (UK) which protects the product; and the number of the application or certificate.

The entries will also state as appropriate: the filing date of the application; the date of grant or rejection of the application; the maximum period of the granted certificate; the effective period of the certificate on entry into force; and the date of lapse or invalidity of the certificate.

There follows three examples of entries under these proceedings. The first relates to a new application for a certificate based on a European patent designating the United Kingdom and having first authorisation of the product in the United Kingdom. The second example relates to a certificate granted based, once again, on a European patent designating the United Kingdom but with the first product authorisation in the EEC in Denmark. The third refers to a certificate entering into force based on a United Kingdom patent with first product authorisation in the EEC in Belgium.

SPC/GB94/021: *Date Expired:* 05 October 2007

Proceedings under the Registered Designs Act 1949

Certificates of Registration issued

Week Ending 10 October 2007

The details of designs in this list as well as previously registered designs, are open to public inspection, details of which may be inspected without provision of a copy, free of charge at the UK Intellectual Property Office, Designs Registry, Newport, South Wales NP10 8QQ or at the London Front Office at Harmsworth House, 13-15 Bouverie St, London EC4Y 8DP.

Copies of the Designs Register entry and representations of the registered design may be obtained from the date on which the Certificate of Registration is issued (Grant Date), on payment of a fee of £5. Photographic copies, where reproduction is from a large or coloured specimen or a photograph that will not effectively photocopy, may be obtainable exceptionally at market price.

Alternatively the Register of Designs and registered representations may be inspected on the UK Intellectual Property Office web site at:

<http://www.ipo.gov.uk>

Clicking on the Database Services button on the home page will display services available of which the following relate to Designs.

Design Status Information Service

Displays the Register entry for each design number input.

Designs Image Search Service

Displays all registered representations and a brief register extract for each registered design. Designs can be searched and examined by proprietor, classification or design number.

No fee is charged for the use of either of the above database services.

Restrictions

Designs registered for wallpaper or lace are not available for public inspection until two years after the date of grant and for textiles 3 years, after the date of grant.

Any enquiries about designs registered prior to 1965 should be addressed to the **Public Record Office, Ruskin Avenue, Kew, Richmond, Surrey TW9 4FU.**

Other Design Publications

Designs in View

Designs in View is an illustrated journal, published weekly. The journal contains a selected image of each design recently granted, along with the following information for each design:

- Design number
- Date of grant
- Statement of article
- Proprietor(s) name(s)
- Registration date
- Locarno classification

Designs in View can be ordered from:

UK Intellectual Property Office (Sales),
Concept House,
Cardiff Road,
Newport,
South Wales
NP10 8QQ
